

- Lawn Owners with annual bluegrass infestations are advised to apply an application now of a pre-emergent herbicide, each August until it is eradicated. Wedel's recommends using Hi-Yield Turf and Ornamental Weed and Grass Stopper. The active ingredient (Dimension) provides excellent control.
- Hairy Bittercress last spring? Prevent Hairy Bittercress now with one application of Hi-Yield Turf and Ornamental Weed and Grass Stopper. Apply now to prevent Bittercress from sprouting and becoming a pest next spring.
- Hi-Yield Turf and Ornamental WEED and Grass Stopper also controls or suppresses many other annual grasses and broadleaf weeds in ornamental landscape areas and established lawns, including crabgrass, chickweed and dandelions.
